

Helping you develop your business

Website Rejuvenation and Creation

Update or start over?

How will it help me?

Many business owners have realised the benefits of having a website to promote their products or services online as a very cost effective and efficient marketing tool

This service will benefit you if you have a website that needs a little attention or if you don't have a website yet but realise that having a website could help customers find your products or services online

It is a sad fact that many website's created to help promote a company and help maintain its image online soon fall behind and become out of date, the main reason for this is time, it can be very time consuming to go through all your pages and make sure they have up to date information such as prices and dates etc

Let us take you through your website page by page and help your website stay current, you can use our experience and technical expertise to make sure your website does not become out of date or you can start from scratch and create the perfect site that fits your business needs

Lead Consultant

The Watershed places a strong emphasis on using only experienced and accredited web site developers to ensure that your website will meet your business needs and perform to your expectations

Andy Thackeray has the business experience having run a successful online store www.the-watershed.co.uk for over six years and has the coveted Macromedia Dreamweaver Developer accreditation to his name, he is also Technology Means Business accredited (the national standard for Business IT advice)

What the clients say

"Dean and Andy from The Watershed made everything seem very straightforward, we now have a fully functioning e-commerce website that looks and works great"

Said Catherine Newman of www.buybrandtools.com, who then went on to say

"from the first contact with The Watershed we felt that our input was steering the development and when the website went live it was exactly what we wanted"

The next step
